PROFILE

Software engineer with 4+ years building and validating cross-platform applications (Android, iOS, PC), now transitioning into SDET / QA Automation. Hands-on experience with REST API integration, SQL/NoSQL data validation, and cross-platform performance testing from production application development. Building automation expertise in Playwright (TypeScript) and Selenium (WebDriver, TestNG, Cucumber BDD, Jenkins), currently deepening this through a dedicated Playwright Test Automation certification (TestLeaf). Comfortable owning quality end-to-end: from writing test scenarios to integrating automated checks into CI pipelines.

SKILLS

Test Automation: Playwright (TypeScript) — in progress via TestLeaf certification | Selenium WebDriver; TestNG; Cucumber (BDD); Jenkins (CI)
API & Data Validation: REST API testing (Postman) | SQL (PostgreSQL, MS SQL) | Data integrity validation across mobile/cloud
Programming: Java | Python | C# | C++ | JavaScript/TypeScript | Flutter
Databases: Firebase | MongoDB | Supabase | PostgreSQL | MS SQL
Tools & Platforms: Git/GitHub | SourceTree | Bitbucket | Jenkins | AWS

CERTIFICATIONS

Programming Design Patterns for Unity | **Mathematics for Computer Games Development using Unity** |
Playwright Automation (Typescript) — TestLeaf (in progress)

WORK EXPERIENCE

Vmoksha Technologies, *Associate Unity Developer* August 2025 – Present | Bengaluru, India
- Develop and validate backend-driven applications using REST APIs and SQL, verifying data integrity and functional correctness across mobile and cloud (AWS) environments — effectively owning integration-level quality checks.

DJ Interactive Solutions Pvt. Ltd., *Unity Developer* August 2024 – August 2025 | Bengaluru, India
- Engineered cross-platform applications for Android, iOS, and PC; implemented Firebase integration for real-time data synchronization.
- Conducted rigorous performance testing across platforms to identify and resolve defects prior to release, ensuring consistent behavior across devices.

DigAmenD Technology Solutions, *Associate Unity Developer* April 2024 – August 2024 | Chennai, India
- Built and validated a multiplayer VR simulation application using Meta XR & Photon Multiplayer for a live product release, testing multi-user session stability and sync behavior.

VRARRI, *Freelance XR Developer* February 2024 – April 2024 | Chennai, India
- Developed and tested AR/VR training and simulation applications (Meta XR, OpenXR) across hardware configurations.

Neur XR Studios, *XR Developer* March 2022 – November 2023 | Chennai, India
- Managed and integrated complex databases (MongoDB Realm, Firebase), optimizing data retrieval logic and validating system stability for industrial-grade simulations.

Greendzine Technologies Pvt. Ltd, *Development Intern* December 2021 – February 2022 | Electronics City Phase 2, India
- Independently developed and tested a mobile VR application for warehouse pick-up and mobility workflows, published in Google Playstore.
- App available on Play Store: SNAIL VR

EDUCATION

MCA (Online - Masters in Computer Applications), *Manipal University Jaipur* September 2025 – Present | Jaipur, India
Skills: SQL, C, Python, Java, DSA, AI/ML

B.Sc Game Design and Development, *ICAT Design and Media College* 2019 – 2022 | Bengaluru, India
Skills: Java, JavaScript, C#. and C++
